

DAMP-LISTED MARQUEE
2.5-WATT LED LAMP

PRODUCT DESCRIPTION:

MaxLite's Damp-listed Marquee 2.5-watt LED lamp is designed to generate up to 85 percent in energy savings to replace standard 10- to 15- watt incandescents and three- to five-watt cold-cathode florescent (CCFL) lamps. The ETL-listed marquee lamp delivers a L70 lifetime of 50,000 hours and can be programmed for outdoor, chasing signage applications at hotels, casinos, resorts, or amusement parks.

FEATURES:

- 2.5 watts
- 2700K CCT
- 50,000 hour life (L70)
- CRI: >80
- Five year warranty
- Suitable for damp locations
- Save up to 85 percent in energy and operating costs
- Unique optic distributes light in an Omnidirectional pattern
- Clear lamp features a collimator that simulates an incandescent filament
- Operates in ambient temperatures of -4°F to 131°F
- Suitable for chasing application
- Non-dimming
- Standard E26 Base

APPLICATIONS:

- Amusement parks
- Hotels
- Casinos
- Signage
- Theatrical lighting
